What if I have health or prescription drug insurance?

You cannot use the card to cover the copay or co-insurance amount you have to pay for drugs processed through insurance. But if you have insurance, you can use the discount card to save money when:

- A drug isn't covered by your insurance
- You have a high deductible plan and have to pay the full cost of the drug yourself
- You are in the Medicare D donut hole

Or you can use the discount card when the card price is lower than the drug cost through your insurance (drug costs paid using the card rather than insurance do not apply toward the insurance deductible or out-of-pocket maximum).
